SUBJECT INDEX

Alloys *("Various" i.e. not listed elsewhere by name)*
Irradiation growth in zirconium and its alloys, A. Rogerson 159 (1988) 43
Irradiation creep and growth of pressure tubes in HWR Fugen, M. Koike and T. Asada 159 (1988) 62
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, D.L. Porter and F.A. Garner 159 (1988) 114
A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190
Irradiation creep mechanisms: An experimental perspective, F.A. Garner and D.S. Gelles 159 (1988) 286
General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339
The creep and growth of zirconium alloys as determined from the bending of ion-irradiated cantilever beams, J.R. Parsons and C.W. Hoelke 159 (1988) 351
Microstructure and creep in Ni(Al) alloys under proton irradiation, P. Jung and H. Klein 159 (1988) 360

Creep and Relaxation
Problems caused by irradiation deformation in CANDU reactors, G.J. Field 159 (1988) 3
Implications of Zircaloy creep and growth to light water reactor performance, D.G. Franklin and R.B. Adamson 159 (1988) 12
Irradiation creep and growth of pressure tubes in HWR Fugen, M. Koike and T. Asada 159 (1988) 62
Irradiation growth of zirconium single crystals: A review, G.J.C. Carpenter, R.H. Zee and A. Rogerson 159 (1988) 86
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, D.L. Porter and F.A. Garner 159 (1988) 114
The effect of intergranular stresses on the texture dependence of irradiation growth in zirconium alloys, A.R. Causey, C.H. Woo and R.A. Holt 159 (1988) 225
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237
Irradiation creep models – An overview, J.R. Matthews and M.W. Finnis 159 (1988) 257
Irradiation creep mechanisms: An experimental perspective, F.A. Garner and D.S. Gelles 159 (1988) 286
General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339
The creep and growth of zirconium alloys as determined from the bending of ion-irradiated cantilever beams, J.R. Parsons and C.W. Hoelke 159 (1988) 351
Microstructure and creep in Ni(Al) alloys under proton irradiation, P. Jung and H. Klein 159 (1988) 360

Defects and Defect Structures
Measurement of irradiation creep of zirconium alloys using stress relaxation, A.R. Causey, F.J. Butcher and S.A. Donohue 159 (1988) 101
Intrinsic point defects in hexagonal close-packed metals, W. Frank 159 (1988) 122
Point defect diffusion in α-Zr, G.M. Hood 159 (1988) 149
A review of computer models of point defects in hcp metals, D.J. Bacon 159 (1988) 176
A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237
Irradiation creep models – An overview, J.R. Matthews and M.W. Finnis 159 (1988) 257
Mechanisms of irradiation growth of alpha-zirconium alloys, R.A. Holt 159 (1988) 310
General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339
Microstructure and creep in Ni(Al) alloys under proton irradiation, P. Jung and H. Klein 159 (1988) 360
Influence of alloying elements on the dislocation loops created by Zr^+ ion or by electron irradiation in α-zirconium, C. Hellio, C.H. de Novion and L. Boulanger 159 (1988) 368
Radiation-induced precipitation in Zircaloy-2, O.T. Woo and G.J.C. Carpenter 159 (1988) 397

Grain Boundary
A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237
Grain boundary sinks in neutron-irradiated Zr and Zr-alloys, M. Griffiths, R.W. Gilbert and C.E. Coleman 159 (1988) 405

Graphite and Carbon
Implications of Zircaloy creep and growth to light water reactor performance, D.G. Franklin and R.B. Adamson 159 (1988) 12

Irradiation Effects *(excl. Swelling and Voids)*
Problems caused by irradiation deformation in CANDU reactors, G.J. Field 159 (1988) 3
The irradiation creep and growth phenomena, V. Fidleris 159 (1988) 22
Irradiation growth in zirconium and its alloys, A. Rogerson 159 (1988) 43
Irradiation creep and growth of pressure tubes in HWR Fugen, M. Koike and T. Asada 159 (1988) 62
Effects of temperature and neutron fluence on irradiation growth of Zr–2.5 wt% Nb, R.G. Fleck, R.A. Holt, V. Perovic and J. Tadros 159 (1988) 75
Irradiation growth of zirconium single crystals: A review, G.J.C. Carpenter, R.H. Zee and A. Rogerson 159 (1988) 86
Intrinsic point defects in hexagonal close-packed metals, W. Frank 159 (1988) 122
A review of computer models of point defects in hcp metals, D.J. Bacon 159 (1988) 176
A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237
Mechanisms of irradiation growth of alpha-zirconium alloys, R.A. Holt 159 (1988) 310
General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339
The creep and growth of zirconium alloys as determined from the bending of ion-irradiated cantilever beams, J.R. Parsons and C.W. Hoelke 159 (1988) 351
Radiation-induced precipitation in Zircaloy-2, O.T. Woo and G.J.C. Carpenter 159 (1988) 397

Mechanical Properties
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, D.L. Porter and F.A. Garner 159 (1988) 114

Microstructure *(incl. Textures)*
Effects of temperature and neutron fluence on irradiation growth of Zr–2.5 wt% Nb, R.G. Fleck, R.A. Holt, V. Perovic and J. Tadros 159 (1988) 75
Irradiation growth of zirconium single crystals: A review, G.J.C. Carpenter, R.H. Zee and A. Rogerson 159 (1988) 86
A review of computer models of point defects in hcp metals, D.J. Bacon 159 (1988) 176
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237
Mechanisms of irradiation growth of alpha-zirconium alloys, R.A. Holt 159 (1988) 310
General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339
Microstructure and creep in Ni(Al) alloys under proton irradiation, P. Jung and H. Klein 159 (1988) 360
Influence of alloying elements on the dislocation loops created by Zr^+ ion or by electron irradiation in α-zirconium, C. Hellio, C.H. de Novion and L. Boulanger 159 (1988) 368
Microstructural characterization of neutron-irradiated and post-irradiation annealed Zircaloy-2, R.A. Herring and D.O. Northwood 159 (1988) 386
Radiation-induced precipitation in Zircaloy-2, O.T. Woo and G.J.C. Carpenter 159 (1988) 397
Grain boundary sinks in neutron-irradiated Zr and Zr-alloys, M. Griffiths, R.W. Gilbert and C.E. Coleman 159 (1988) 405

Steels
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, D.L. Porter and F.A. Garner 159 (1988) 114
Irradiation creep mechanisms: An experimental perspective, F.A. Garner and D.S. Gelles 159 (1988) 286

Swelling
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, D.L. Porter and F.A. Garner 159 (1988) 114
A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190
Irradiation creep mechanisms: An experimental perspective, F.A. Garner and D.S. Gelles 159 (1988) 286

Sink strengths for hcp magnesium, N. Smetniansky–De Grande, A. Sarce, E.J. Savino and C.N. Tome 159 (1988) 379

Zirconium, Zirconium Alloys and Compounds

Problems caused by irradiation deformation in CANDU reactors, G.J. Field 159 (1988) 3

Implications of Zircaloy creep and growth to light water reactor performance, D.G. Franklin and R.B. Adamson 159 (1988) 12

The irradiation creep and growth phenomena, V. Fidleris 159 (1988) 22

Irradiation growth in zirconium and its alloys, A. Rogerson 159 (1988) 43

Irradiation creep and growth of pressure tubes in HWR Fugen, M. Koike and T. Asada 159 (1988) 62

Effects of temperature and neutron fluence on irradiation growth of Zr–2.5 wt% Nb, R.G. Fleck, R.A. Holt, V. Perovic and J. Tadros 159 (1988) 75

Irradiation growth of zirconium single crystals: A review, G.J.C. Carpenter, R.H. Zee and A. Rogerson 159 (1988) 86

Measurement of irradiation creep of zirconium alloys using stress relaxation, A.R. Causey, F.J. Butcher and S.A. Donohue 159 (1988) 101

Intrinsic point defects in hexagonal close-packed metals, W. Frank 159 (1988) 122

Point defect diffusion in α-Zr, G.M. Hood 159 (1988) 149

A review of computer models of point defects in hcp metals, D.J. Bacon 159 (1988) 176

A review of microstructure evolution in zirconium alloys during irradiation, M. Griffiths 159 (1988) 190

Displacement collision cascade damage in hcp metals, W.J. Phythian 159 (1988) 219

The effect of intergranular stresses on the texture dependence of irradiation growth in zirconium alloys, A.R. Causey, C.H. Woo and R.A. Holt 159 (1988) 225

Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, C.H. Woo 159 (1988) 237

Mechanisms of irradiation growth of alpha-zirconium alloys, R.A. Holt 159 (1988) 310

General discussion of creep and growth mechanisms: Their theoretical and practical implications, R. Dutton 159 (1988) 339

The creep and growth of zirconium alloys as determined from the bending of ion-irradiated cantilever beams, J.R. Parsons and C.W. Hoelke 159 (1988) 351

Influence of alloying elements on the dislocation loops created by Zr^+ ion or by electron irradiation in α-zirconium, C. Hellio, C.H. de Novion and L. Boulanger 159 (1988) 368

Sink strengths for hcp magnesium, N. Smetniansky–De Grande, A. Sarce, E.J. Savino and C.N. Tome 159 (1988) 379

Microstructural characterization of neutron-irradiated and post-irradiation annealed Zircaloy-2, R.A. Herring and D.O. Northwood 159 (1988) 386

Radiation-induced precipitation in Zircaloy-2, O.T. Woo and G.J.C. Carpenter 159 (1988) 397

Grain boundary sinks in neutron-irradiated Zr and Zr-alloys, M. Griffiths, R.W. Gilbert and C.E. Coleman 159 (1988) 405

CONTENTS

Preface vii
Committee Members viii
List of Participants xi

Invited Papers and Reviews

Problems caused by irradiation deformation in CANDU reactors, *G.J. Field* 3
Implications of Zircaloy creep and growth to light water reactor performance, *D.G. Franklin and R.B. Adamson* 12
The irradiation creep and growth phenomena, *V. Fidleris* 22
Irradiation growth in zirconium and its alloys, *A. Rogerson* 43
Irradiation creep and growth of pressure tubes in HWR Fugen, *M. Koike and T. Asada* 62
Effects of temperature and neutron fluence on irradiation growth of Zr–2.5 wt% Nb, *R.G. Fleck, R.A. Holt, V. Perovic and J. Tadros* 75
Irradiation growth of zirconium single crystals: A review, *G.J.C. Carpenter, R.H. Zee and A. Rogerson* .. 86
Measurement of irradiation creep of zirconium alloys using stress relaxation, *A.R. Causey, F.J. Butcher and S.A. Donohue* 101
Irradiation creep and embrittlement behavior of AISI 316 stainless steel at very high neutron fluences, *D.L. Porter and F.A. Garner* 114
Intrinsic point defects in hexagonal close-packed metals, *W. Frank* 122
Point defect diffusion in α-Zr, *G.M. Hood* 149
A review of computer models of point defects in hcp metals, *D.J. Bacon* 176
A review of microstructure evolution in zirconium alloys during irradiation, *M. Griffiths* 190
Displacement collision cascade damage in hcp metals, *W.J. Phythian* 219
The effect of intergranular stresses on the texture dependence of irradiation growth in zirconium alloys, *A.R. Causey, C.H. Woo and R.A. Holt* 225
Theory of irradiation deformation in non-cubic metals: Effects of anisotropic diffusion, *C.H. Woo* 237
Irradiation creep models – An overview, *J.R. Matthews and M.W. Finnis* 257
Irradiation creep mechanisms: An experimental perspective, *F.A. Garner and D.S. Gelles* 286
Mechanisms of irradiation growth of alpha-zirconium alloys, *R.A. Holt* 310
General discussion of creep and growth mechanisms: Their theoretical and practical implications, *R. Dutton* 339

Contributed Papers

The creep and growth of zirconium alloys as determined from the bending of ion-irradiated cantilever beams, *J.R. Parsons and C.W. Hoelke* 351
Microstructure and creep in Ni(Al) alloys under proton irradiation, *P. Jung and H. Klein* 360
Influence of alloying elements on the dislocation loops created by Zr^+ ion or by electron irradiation in α-zirconium, *C. Hellio, C.H. de Novion and L. Boulanger* 368
Sink strengths for hcp magnesium, *N. Smetniansky–De Grande, A. Sarce, E.J. Savino and C.N. Tome* 379
Microstructural characterization of neutron-irradiated and post-irradiation annealed Zircaloy-2, *R.A. Herring and D.O. Northwood* 386
Radiation-induced precipitation in Zircaloy-2, *O.T. Woo and G.J.C. Carpenter* 397
Grain boundary sinks in neutron-irradiated Zr and Zr-alloys, *M. Griffiths, R.W. Gilbert and C.E. Coleman* 405
